Staffing and RPO

Leveraging our global network across 90 client locations, we consistently deliver effective staffing and diversity recruitment solutions. Utilizing our extensive talent database and innovative screening platforms, Vignetic sources local workers with subject matter expertise that can quickly scale.

Consulting & Advisory

Partnering with our client's internal teams, Vignetic evaluates, advises, and supports strategic planning, business case development, ERP technology architecture, project scoping, execution, as well as project management. We help organizations improve operational processes, reduce overall costs, and create impactful, sustainable growth.

Managed Services

As a leading provider of information technology management and professional services, we optimize IT investments and automate operations to reduce the total cost of ownership (TCO) for assets and programs. Vignetic maximizes the efficiency of core client resources to align every project with high-level organizational strategy.

Vignetic Capabilities

"The quality of the people that Vignetic sent us was substantially better than other firms. No contest. With Vignetic, the first group of candidates they sent us were the right people for the positions."

Akira Bell
